Close Herronton School

Approve Further School Centralization

Centralization at Vulcan High School of the Grades 10, 11 and 12 students of Carmangay, Champion, Arrowwood and Brant schools, commencing in September, was approved at the regular meeting of the County of Vulcan School Committee held on Monday, May 7.

The Mossleigh school will continue to operate up to and including Grade Eleven, with Grade Twelve students from that area attending school at Vulcan. Operation of the Herronton school will be discontinued effective June 30 this year, with students from there attending the Mossleigh and Brant schools.

In the opinion of the School Committee, these changes will provide better service and greater opportunity for the educational advancement of the students affected. The Vulcan High School will be able to accomodate the approximately 85 additional students without any major changes.

The Town of Vulcan will be asked to pass the necessary by-law and have a survey made with a view to enlarging the playgrounds at the Vulcan Elementary School.

Various staff changes were discussed and much time spent on finalizing the proposed budget for the year, to be presented at the County Council meeting on May 11.

Water Resources Board Testing New Town Wells

Five new town wells, producing about 40 to 45 gallons a minute of water that is practically free of the troublesome Glauber's salts, are this week receiving a final check by a representative of the Provincial Water Resources Board before being hooked up to the town's water system. They are being checked for quantity, for quality of water and for maintaining of water levels under production.

The wells have all been cemented in and pumps installed. S. H. H. Joiner, chairman of the town's waterworks committee, stated on Tuesday of this week that once the new wells are hooked up to the town system it is hoped to cut off the well in the west end of town that is so heavily loaded with salts. This would result in a considerable improvement in the town water.

Plans for construction of a million-gallon reservoir are being held in abeyance pending the outcome of the tests being conducted by the Water Resources Board, which will be concluded this week.

Crowds Applaud

The University of Alberta Mixed Chorus, in its first appearance in Vulcan since it began spring tours in 1948, thrilled a crowd of 350, made a host of new friends and, perhaps inadvertently managed a small educational campaign on neatness, dress and deportment which is found among post-high school students at University. The program presented by the chorus was of a rather high intellectual level, and it is doubtful if many listeners could remember the names of the selections sung or the theme or melody. What they do recall though and will remember is the beautiful sounds of four-part harmony from an exceptionally well rehearsed choir directed by the well known Professor Richard Eaton. His calm but meticulous leadership was noted throughout and was particularly demonstrated in the soft organ-like sound of the final note in two or three numbers. The neat, clean appearance of the chorus brought the comment from a most respected Vulcan citizen, "It's worth the price of admission just to see them.". In one of the homes, following the program, local school girls questioned the choristers on their comparative lack of makeup, their conservative dress and hair stylings. "Oh that is just a high school trait," was the reply, referring to the too-short dresses and extremes in makeup and hair stylings practised by many high school girls. "You soon drop that when you get to university." Never was education more seriously digested.

Hope For More

Snow Storm Brings Welcome Moisture

Well, there is some moisture up there after all. Wet snow and the odd bit of rain Sunday night added up to precipitation varying from .27 of an inch in Vulcan to almost three-quarters of an inch in the north-east part of the county. The eastern part of this area apparently benefitted the most, with Reid Hill reporting a half inch and Milo getting six-tenths of an inch.

The moisture, although less than what was hoped for, has considerably improved farming conditions and has put at least a temporary stop to soil drifting which was a serious problem in some parts of the county.

Many farmers had suspended seeding operations because of the dryness of the soil but will now be able to go ahead with prospects of enough moisture for germination. Some early-sown wheat is reported to be up.

The weather was still cloudy and unsettled on Tuesday and more precipitation, in any form, would be welcome.

Fire Causes Interior Damage

The combination of children and matches had serious consequences Monday afternoon of this week when fire damaged the interior of their dwelling near the skating rink.

Two rigs from the Vulcan Fire Brigade responded to a call to the Wellwood residence late in the afternoon and were met by heavy smoke in all rooms particularly in the children's bedroom where the fire had its source. This room suffered most serious damage with the loss of clothing, bedding and mattresses.

The Wellwoods have four children, two of school age. Mrs. Wellwood had locked the home and taken her youngest child to a neighbor's home and during this time it is believed a group of children found the key in the porch and entered the house.

The home is owned by Stan Scales and suffered smoke and water damage throughout as well as extensive burning in one bedroom.

Bill Wellwood is an employee of Revelstoke Building Materials Ltd.

* * *

Last week the Rural Fire Protection Co-op fire fighting truck was called to the Carson McKay farm in the Reid Hill district when flax bales used as insulation around a house occupied by the hired man and his family caught fire and threatened to get out of control and destroy the building. A quick run by the truck and efficient work by its crew kept damage to the house to about $100.

Helping Your Child

The Cub, Scout, Guide and Brownie movements seem always to be faced with problems of accommodation, finances, leaders and lack of public interest no matter which town is involved. Vulcan's case is not too different from the general scene but the leaders and various divisions of the Lake McGregor District keep at the task year after year aware that the rewards of their work are not always as obvious as in other vocations but are usually more lasting and worthwhile. Those leaders who guide a young Tweeny through her test into the Brownie Pack, help a boy from tenderfoot stage of Cubbing and watch the development of the youngster through the early teen years upward to healthy adult life, have the reward of satisfaction found in a job well done, that is hard to equal.

In the next few weeks the Advocate will publish photos of the various leaders among the Vulcan Associations and deal with their work with the children. Three leaders of the first Vulcan Brownie Pack are shown above. From left to right they are Mrs. Jean Scobie, Mrs. Ida Andrews and Mrs. Alex Grant who gives leadership to 21 young girls at meetings held every Monday afternoon at the Scout Hall. Mrs. Scobie is Brown Owl to the pack and has been in this work for two years. Mrs. Andrews is Tawny Owl and has one year's experience with Brownies. Mrs. Grant is Tawny Owl and is in her first year of assistance.

Ages of the pack run from eight to 11 years, at which stage they go into Guides. Brownies supply their own uniform and are given a pin and belt. Following their six weeks as a Tweeny, girls may take tests to enter Brownies and there follow tests for golden bars, golden bands and all sorts of proficiency badges. This first Brownies pack is holding a bake sale this Saturday at the old Bakery on main street and will also welcome Brownie mothers to a special Mother's Day tea at the Scout Hall, next Monday at 4:00 p.m. Along with the Brownie leaders, others help in giving tests to the girls. They are Mrs. Scotty Sutherland, Mrs. L. Mensinger, Mrs. B. Tonken, Mrs. Kay Brooks, Mrs. N. Soder, A. Collier and Jack Price.

Junior-Senior Players

Six Teams In Reorganized Foothills Baseball League

Baseball will return to Vulcan, Champion and Lomond this year with entry being made into the Foothills Baseball League. This league is made up of six teams, Okotoks, High River, Nanton and the three from this area.

The scarcity of senior or junior players to make up complete teams in the league of either category has resulted in all towns going with a junior-senior set-up. In each case all local players will be used and on the Vulcan Elks lineup at least six prospects are of junior age.

A tentative lineup includes: Fred Burley, captain; Don Houlton, Jack Ruark, Dave Collier, Leslie Perley, Reg Lebsack, George Reddick, Hartley Phillips, Barry Deal, Dave Mitchell, Ken Gatenby, Mel Jordan, Pete Degenstein, Michael Jantzie, Charlie Sjogren and Wayne Ericksen. Club president is Ken Gatenoy and the coach will be Merlin (Dusty) Rhodes. Appointed secretary and business manager is A. Ruark.

The 20-game schedule begins this Sunday, May 16, with Nanton playing at Vulcan, Lomond at Champion and Okotoks at High River.

Season tickets are now on sale and league schedules are being printed for distribution.

This district was without senior baseball last year and with a well kept diamond ready to go, many ball fans will be interested in the revival of the game.

Nurses Hear Talk On First Aid

The regular meeting of the AARN chapter no. 28 was held in the Legion hall with 22 present.

The members are invited to attend the meeting of the High River Chapter, Monday, May 14, at 8:00 p.m. when Miss Claudia Tennant will be the guest speaker. All those wishing to go, please meet at the Legion hall before 7:00 p.m. A trip is also to be made to the Dorothy Gooder School in Lethbridge, June 12.

The guest speaker, Lundy Findlay, speaking on First Aid, compared the work of those trained in First-aid and that of a nurse. The new edition of the St. John's Ambulance hand-book was reviewed and several changes noted. Advances made in First Aid in Disaster and Civil Defence were also noted. A demonstation was then given of the Holger—Nielsen method of artificial respiration.

Mr. Findlay spoke of the new Vulcan Ambulance Service, operated jointly by the Town and County. Equipment needed is to be investigated by the nurses.

Nurses please note; a Refresher Course in First Aid is to be held June 4, 7, 11 and 14, in the Carson Blk. at 8:00 p.m.

Lomond Pioneer, Fred Hart Dies

A well known pioneer resident of the Lomond district, Fredrick Hart died at Lethbridge on May 5, 1962, following a lengthy illness. He was 73.

Born at Doland, South Dakota, Mr. Hart came to the Lomond district in 1908 and had resided there since that time.

Besides his wife, Florence, he is survived by one daughter, Mrs. Jack (Edna) Commet of Grande Prairie; four sons, Leonard of Vulcan and Denver, Walter and Oliver, all of Lomond; 17 grandchildren; one brother and three sisters all living in the United States.

Services were conducted at the Lomond Community Hall on Tuesday, May 8, at 11:00 a.m., with interment following in the Travers cemetery Pall-bearers were Henry Huff, Richard Teasdale, Clifford Booth, Andrew McAlister, William Brown and Joseph Chambers.

The Vulcan Funeral Home was in charge of arrangements.

CPR Agent Moved To Olds

Harry Ray who has been CPR agent at Vulcan, will assume his new duties as agent at Olds on May 15. He came to Vulcan from Millet, Alberta, a year ago.

Mrs. Ray is a member of the CWL, also a member of the Vulcan Chapter, AARN.

Their friends wish them and their four boys every success.

Board of Trade May Conduct Shopping Survey

Investigation of a shopping survey held last year at Innisfail, with a view to a similar project for the Vulcan district, was begun at the May meeting of the Vulcan District Board of Trade held at the Hotel Dinning Room, Wednesday, May. 3.

Problems involving cost of such a survey, handling and distribution and needed revision of the question material to make it more applicable to this area, will be taken up by the Board.

Membership in the Board of Trade is, so far, lagging, and a drive is currently on to contact businessmen and farmers for their renewal with various members handling receipt books.

A recurring subject on the Board's agenda, that of the erection of a descriptive town sign at the highway entrance was once again discussed and it is hoped to have a committee set up to go into its construction.

Two Texas scientists announced that frogs and toads develop regional dialects.

Eight Clubs Competing

Hold 4-H Public Speaking Contest Friday, May 11

Eight district 4-H Club will be represented this Friday at the 1962 Public Speaking Competition and Rally of Vulcan area junior farm groups.

Applying the 4-H motto, "Learn To Do By Doing," 16 entries will be on stage at the Vulcan Lodge Hall at the competitions sponsored by the Department of Agriculture through local District Agriculturist, Clarence Roth, and the Vulcan District Board of Trade.

Two of last year's contest winners, Nadne Armey of Arrowwood and Lorraine Roebuck of the Vulcan West-Ensign Club are entered again in the 1962 event.

Three judges, Earl Hawkesworth of Vulcan, Mrs. Milt Ward of Arrowwood and Merv Leibriech of Lomond will pick winners to go to future 4-H competitions. Rally entertainment is to be supplied by the Berrywater Beef Club members.

Once again, heaviest entry is from Mossleigh where six speakers will be on the program. Arrowwood will send four young contestants, and two will represent the districts of Vulcan West-Ensign, Lomond and Berrywater.

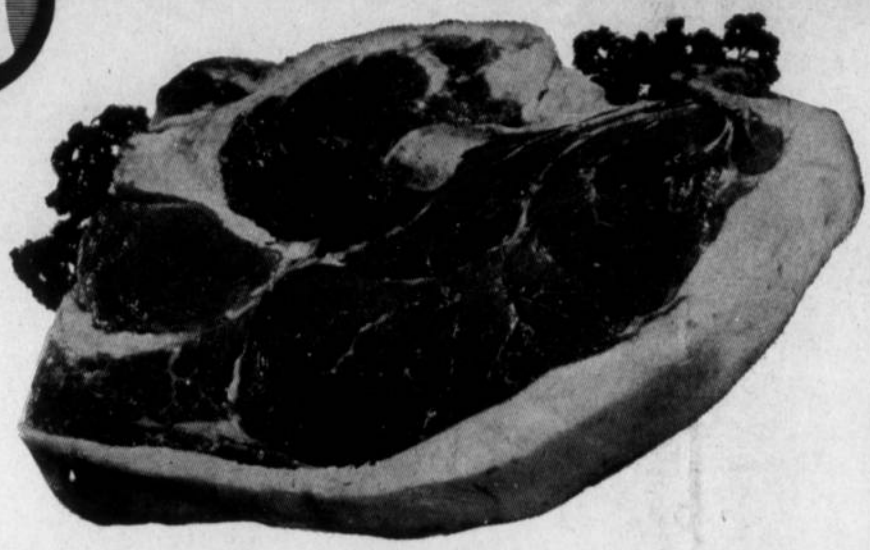

Lethbridge competition takes place May 14, as part of a dinner meeting of the Green Acres Kiwanis Club. Winners in turn appear in Calgary with the Exhibition Board sponsoring Southern Alberta Finals. This Calgary trip involves a day-long outing at Happy Valley prior to the evening speaking contest. First prize award is a trip to the Provincial 4-H Camp at Lake Wakaw in Saskatchewan or the Regina Exhibition Farm Camp. Other personal awards and gifts will be given contestants reaching this stage of the finals.

Clean-up Week

In conjunction with the town's annual cleanup week held in Vulcan from May 9 to 14, the downtown main streets once again got the shovel and broom treatment. Merchants, bankers and all forms of town business life converged on the streets Monday morning and by the time the boys lined up for the free 10 o'clock coffee provided by the Hotel Dining room, it was once more resectable looking pavement. Town crews gathered the piles of dirt and garbage and in the afternoon the fire trucks were used to hose down the streets as a final gesture. Now if the dust would blow through, and not just into town, and if people would get into the habit of using the garbage receptacles placed on streets by the Lions club, the results of the volunteers would be more lasting.

Paul Beckta, of Claresholm, used some ingenuity recently to construct a wishing well decoration for his garden. Old tires form the body of the "well" and the Claresholm resident built the traditional cover to make it authentic. He is shown here applying a coat of paint to the structure.

THE VULCAN ADVOCATE

This is a comparatively common southern Alberta rural scene these days— a newborn calf and to all intents and purposes, a proud mother. Paul Andersen of Claresholm, could not resist taking a quick photograph of the setting just before the calf decided to try its spindly legs. Farmers in the district report the calf crop is good this spring, but have doubts about adequate feed and water for their stock.

MEMO TO ADVERTISERS

The Hallmark of Circulation Integrity

AUDITED PAID CIRCULATION ABC

In the same way that STERLING on silver signifies a standard of known value, so is this A.B.C. emblem a symbol of FACTS about the circulations of newspapers and periodicals. It is the emblem of membership in the Audit Bureau of Circulations* and is assurance to advertisers that the circulations of member publications are measured, audited and reported in accordance with the rigid standards that have been mutually approved and adopted by advertisers and publishers. Here's why our membership in the A.B.C. is important to our advertisers and ourselves: At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough inspection and audit of our circulation records. The results of this exacting audit show: how much circulation we have; where it goes; how it was obtained; and many other FACTS that advertisers need as a sound basis for their advertising investments. This audited information is published by the Bureau in easy-to-read A.B.C. reports which are available to our advertisers on request.

ABC Report

*The Audit Bureau of Circulations, of which this newspaper is a member, is a cooperative, nonprofit association of 3,575 advertisers, advertising agencies and publishers. Organized in 1914, A.B.C. brought order out of advertising chaos by establishing: A definition for paid circulation; rules and standards for auditing and reporting the circulations of newspapers and periodicals.

Warning Public On Explosives

Western Command headquarters at Griesbach recently issued its annual warning to the public to be aware of the danger in picking up unexploded ammunition or explosives they might find in trainng areas.

If anyone fnds an object that could be old ammunition, or even souvenirs, the Army wants them to advise the nearest police. Police will then let the ammunition experts at Western Command know about it, and the article will be handled safely.

Each spring brings a rash of so-called "dud" ammunition accidents, a Western Command spokesman said. There is only one way to avoid the mishaps, it was said, and that is not to touch the stuff.

Particularly dangerous places are those areas where troops have been training during the winter months. Although these spots are invariably marked with signs, children always like to pick up unusual looking objects, the Army says, and this results in casualties.

Any ammunition-type souvenirs will be returned to the owner after being checked.

Nonsense About Rural Tyranny

There is a great deal written, and much of it nonsense, about the inequities of representation as between country dweller and city dweller in our legislatures and parliament. Admittedly, there are many, many instances of where the farmer's vote is worth much more than his city cousin's. And it is not defended very often even by the farmer where the imbalance is so marked.

But the latest article on "The rule of the yokel" as he calls it, is by one of Canada's better known writers, J. B. McGeachy, in a national financial weekly. "Giving the cow pastures too many seats in the legislatures, and the cities too few, is a bad old custom" he says, pointing out that now is a once-in-decade opportunity to correct the situation.

Then he goes on to point out that Canadian cities of more than 40,000 persons have just about half of the country's population, but elects only 41 percent of the Commons membership.

"How about this for majority rule, the great palladium of our liberties?" rants Mr. McGeachy.

He should have known better.

Certainly, Mr. McGeachy is writing for a predominantly urban audience, and his article will sound perfectly right to them. And certainly we are writing for a predominantly rural audience, and it is possible our thoughts are colored somewhat by our circumstances. But so long as our representatives come from urban ridings as opposed to rural ridings, so long as certain constituencies impose tremendous problems of travel on their representative, while urban areas are highly compact and so long as metropolitan centres would be capable of producing blocs of representatives sympathetic only to those matters which would foster development favoring their locals . . . for this long and possibly longer, there is every reason for a vote weighed somewhat in favor of the rural area.

Weighted slightly, we think, not tremendously as is seen sometimes here in Alberta. As long as geography plays so important a part in the development of this nation, we feel that townships have to be taken into consideration when fixing electoral boundaries, not just population, as Mr. McGeachy and many others would have it.

You can call a halt to progress any time — even "up in the air". The quickest way, for both individuals and business is to stop planning for the future — or not to have the ability to plan for any future.

In essence, the principle of fire, automobile and casualty insurance is that it is a plan for the future. It ensures progress by banding people together to share the expected losses of the few among the many. Because it allows people to "average out" their chances of a completely crushing loss into a relatively small fixed expense, insurance enables them to move ahead on a planned basis.

The fact that Canada's fire, automobile and casualty insurance companies are paying out more than a million and a half dollars *every day* this year in claims indicates that prudent Canadians make safe plans for their future.

Jim Coutts believes

"Students in Macleod — as everywhere in Canada — deserve help. Many have left school too early; many have no money for vocational, technical trades or university training. Our Liberal answer is to provide federal funds to re-educate the drop-outs, to retrain older workers, to develop youthful Canadians' talents. There is no investment to equal the investment in human resources."

ARMADA

Mrs. Mildred Lucas left last Friday for Manitoba to visit her parens, Mr. and Mrs. Fredrickson who celebrated their 50th wedding anniversary. Mrs. Lucas will be away about ten days.

Mr. and Mrs. Dean Hall and Terry of Chilliwack, B.C., and Mrs. Anderson of Milo were Wednesday afternoon visitors at the home of Mr and Mrs. Art Marks.

Mr. and Mrs. Orville Herman and family spent the weekend at the home of Mr. and Mrs. Leo Herman of Calgary.

There were a few people from the district who attended the sale at Queenstown on Saturday.

Master Neil Tyler, son or Mr. and Mrs. Bud Tyler, spent a couple of days at the home of his uncle and aunt, Mr. and Mrs. Arnold Boe. Mrs. Tyler spent the weekend at the Girl Guide camp at High River.

Correction:— A mistake in last week's news was made by your correspondent. It should have read Bonnie Boyd spent the Easter holidays at the home of her brother and sister-in-law, Mr. and Mrs. Gordon Boyd.

The Teasdale sale at Lomond was well attended by people of the disrtict.

Raymond Beagle and Irvin Bennet had a look at the district from the air last Tuesday, when they spent nearly an hour in the plane with Lionel Lucas, a pilot from the Vulcan Flying Club.

Mrs. Inguald Magnuson spent a few days at the home of her son-in-law and daughter, Mr. and Mrs. Tom Annear of Calgary. Mrs. Magnuson was taking care of her grandchildren while Mrs. Annear was a patient in the hospital undergoing an operation.

Stancil Chambers attended the Jack Paul sale at Okotoks last Wednesday.

One afternoon last week Mrs. Marjorie Marks en route home from Milo had a flat tire on her truck. When she went to change it she found the spare was flat too so she loaded her groceries in a wheel-barrow and pushed it about a mile to her home. When she got home husband Art wanted the keys for thte truck so she gave them to their son Dougie to give to his Dad. In the mean-time Art was busy so Dougie put the keys on the fender of the car. After supper Marjorie jumped in the car and took a daughter, Murna to Guides at Lomond. Next morning Art wanted the keys only to find they had been put on the fender of the car. So that day Art and Marjorie spent several hours looking for the keys between home and Lomond. They were very lucky to find them at the four corners east of Melvin Magnuson's. One can well imagine the keys at the Marks home from now on will be kept in a safe place when not in the truck.

COMMUNITY CLUB

The ladies of the Community Club met at the schools last Wednesday evening with Mrs. Amy Stokes as hostess. There were 18 members and 11 visitors present. Mrs. Hughes was present and she was one of the original members of the club which started several years ago.

Financial and minute reports were given, also the roll call, which was "bring baking for the baking table." The club is going to put a float in the various parades in the surrounding areas. It was decided to serve a hot dinner to the FWUA which will be held in October.

Mrs. Leona Kunkel won the tea raffle. Mrs. Wilma Boe's contest was won by Vivian Hanna. The Mother's Day contests were won by the following: 1, oldest grandmother, Mrs. Hughes; 2, mother born the farthest away, Mrs. Dorothy Henrickson; 3, mother with most buttons on her clothes, Mrs. Lund; 4, grandmother with fewest grandchildren, Mrs. Sis Stokes; 5, youngest mother with youngest child, Mrs. Reni Chambers; 6, mother who can twist best, Mrs. Mary Stokes.

The bake table did not take too long to become bare as the baking went very well. The Mother's Day tea and bake sale was enjoyed by all present.

A delicious lunch was served by Mrs. Lund, Mrs Marjorie Marks, Mrs. Audrey Lucas and the hostess, Mrs. Amy Stokes.
